

Write for EUspresso!

EUspresso – „Stories from the heart of Europe“ - is an Platform for Central Europe, based in Vienna. We are looking for students interested in writing about social, economic and political developments in Czech Republic. Stories that meet the requirements will be published on the webmagazin EUspresso.eu (to be launched in November) or sold to a network of newspapers and magazines in Austria, Switzerland, Germany.

The reportages, reports, comments are ideally written in German or English and should be characterized by a very human, fresh, untechnical and European approach. If you are interested send over some topics or ready-made stories, if you have some pressing topics in mind but you lack the journalistic techniques, we can try to develop the stories together.

My name is Clemens Neuhold (32), for 8 years I have been working for the Austrian daily KURIER, covering economic, European and Central European Affairs.

Looking forward to hear from you!

Clemens
